SUMMARY

IT professional with experience in system administration, cloud support, and IT infrastructure. Skilled in troubleshooting, server administration, Microsoft 365, Linux, and cloud services. Strong background in root cause analysis and resolving complex technical issues. Known for being reliable, adaptable, and effective in both technical and client-facing environments. Open to System Administrator, Cloud Support, and Infrastructure roles, including international opportunities.

EXPERIENCE

PT Dwijaya Adiwahana (ISUZU Jombang)

Sales Executive

Jombang, Indonesia • Mar 2026 - Present

- Engaged with commercial clients to understand operational requirements.
- Coordinated internal teams to support delivery and after-sales processes.

Solutionlabs Group

Technical Consultant L2 (Microsoft Cloud)

Yogyakarta, Indonesia • Aug 2024 - Nov 2025

- Managed Microsoft 365 environments and supported server infrastructure to maintain system availability.
- Handled escalated technical issues, performed root cause analysis, and implemented permanent solutions.
- Conducted preventive maintenance and prepared technical reports for decision-making.
- Collaborated with teams to improve cloud infrastructure and operational processes.

Backend Developer (Project Based)

Yogyakarta, Indonesia • Nov 2024 - Jan 2025

- Developed and maintained RESTful APIs using .NET Core as part of a separate project engagement.
- Supported integration work and troubleshooting alongside primary Technical Consultant responsibilities.

PT Mitra Integrasi Informatika

Technical Consultant Analyst (Microsoft Cloud)

Jakarta, Indonesia • Jun 2023 - Jun 2024

- Conducted system assessments and gap analyses for enterprise clients.
- Provided technical support and troubleshooting during implementation phases.
- Delivered knowledge transfer sessions and created technical documentation.
- Supported Microsoft-related solutions and infrastructure components.

Mutiara Hati Hospital

IT System Administrator

Mojokerto, Indonesia • Jan 2020 - Jun 2023

- Managed end-to-end IT operations as the sole technical person (network, servers, Linux, and user support).
- Administered servers (Web, SQL, File Servers) and Linux environments to support 24/7 hospital operations.
- Developed and maintained internal web and desktop applications to support hospital processes.
- Handled hardware, software, PABX, and CCTV systems across the facility.
- Provided end-user technical support for hardware, software, and operating systems.
